SHAWNEE-ON-DELAWARE, PA – Shawnee Mountain, home of the Tomahawk Express, Pennsylvania's newest high-speed quad lift, has several capital improvements for the 2011-12 winter snow sports season.

TWO NEW SNOW CATS

Adding to an already impressive grooming fleet, two new Piston Bully Snow Cats complete with flex tiller groomers have been purchased for this season. Nightly, 125 skiable acres are groomed on Shawnee Mountain along with the Bushkill Terrain Park and the Pocono Plunge Tubing Park.

ADDITIONAL RENTAL EQUIPMENT

Already one of the regions largest ski and snowboard rental facilities, Shawnee added 350 new pairs of Salomon skis and bindings, 350 new Flow snowboards and bindings, 300 new Burton adjustable helmets and 500 new token operated lockers. The Shawnee Rental Shop has the capacity to outfit over 4,000 skiers and riders per day.

SNOWMAKING UPGRADES

In an effort to increase snowmaking productivity, Shawnee Mountain has completed the installation of new air and water piping on the popular Pennsylvania Trail and in sections of the base area.

Shawnee's eight miles of trails have 100 percent snowmaking capabilities.

IMPROVED WIFI

The wireless internet services in both the Hope and Trepp Ski Lodges have been upgraded, promising more connections and faster service.

SEASONAL LOCKER ROOM REFURBISHED

The older ski and snowboard lockers have been replaced with new larger ones. The room layout has been redesigned for easier access, complete with new benches and new flooring. New boot lockers have also been added.

Shawnee Mountain is located in the Pocono Mountains of Pennsylvania just off Exit 309 on Interstate 80.
