WHAT'S NEW at SHAWNEE MOUNTAIN for the 2015-16 SEASON

SHAWNEE-ON-DELAWARE, PA – Family and beginner friendly Shawnee Mountain is pleased to announce several improvements to enhance its ski and snowboarding facilities for the winter snow sports season.

Snowmaking Upgrades

It all starts with dependable snow conditions for the 2015-16 winter season. Shawnee Mountain added two new SMI Super PoleCat tower mounted snow machines on Lower Tomahawk, its very popular expert slope. Electrically powered, the SMI Super PoleCat is a high performance, big throw snow machine that is energy efficient and fully automated. Mounted on towers high along the edge of the trail, the radio controlled and oscillating Super PoleCats are expected to quickly and efficiently cover and keep covered, Tomahawk's steep headwall with a dependable deep base of machine made snow.

New Grooming Machine

Adding to an already impressive grooming fleet, a new Pisten Bully 400 Free Groomer was purchased for 2015-

16. In season, 125 skiable acres are groomed nightly on Shawnee Mountain along the 3000-foot Bushkill Terrain Park and the Pocono Plunge Snow Tubing Park.

Additional Rental Equipment

As part of a multi-year program to modernize its massive ski and snowboard rental shop, Shawnee Mountain purchased 300 new Elan Exam E-rise skis and 300 new Flow and Rossignol Snowboards.

The Shawnee Rental Facility, with its new more efficient ski and snowboard racking system, is able to outfit over 4000 skiers/riders, making it one of the largest rental shops in the country.

Repared Entrance Road

Upon arrival, drive in guests will have a smooth ride, thanks to the newly paved and widened parking lot entrance and exit loop. A new two-lane drop off zone was added for easier and safer unloading of passengers and equipment.
